The President
Toronto, University
Toronto, Canada.

Dear Sir:-

Would You be kind enough to give me some information pertaining to the Schools in or around Toronto. I have three girls and was thinking of taking them to Toronto to be educated, and my idea was to leave them there while I return to Cuba again, visiting them possibly every year.

I am in the Sugar industry here as Engineer of one of the Mills, and thought that Toronto would suit both the Children and myself.

At the present time they are going to school in Hawaii, (United States territory) and seem to be doing well but it is so far away, I like to have them nearer.

Their ages are 8, 10, 12, years, the oldest one is now in the sixth grade, the others I am not quite certain.

Awaiting Your reply, and thanking You in advance.

I Remain

Yours Respectfully
A. G. Stodart-

A. G. Stodart, Esq.,
Los Canos Estate,
Guantanamo, Cuba.

Dear Sir:

I have your letter asking me to give you information with regard to schools for girls in or about Toronto. There are many very good schools in Toronto, several of which I believe would suit you. I assure that your daughters desire to attend a Protestant School, but you give me no information as to whether they have any special church affiliation. Connected with the Church of England there are Havergal College and Bishop Strachan School, both of which are excellent schools. The following private schools are of a very high class: St. Margaret's College, Branksome Hall, Westminster College, Westbourne School, and Miss Veals'. It is difficult for me to make any decision in this matter. Perhaps if you have decided denominational preferences I might be in a position to give you further help in the matter.

Yours sincerely,

President.
